

ZecHub Treasury Report

Q2 2026

ZecHub is a 501(c)(3) public charity that creates educational material for the public good.

The purpose of this presentation is to transparently provide insight into ZecHub Treasury expenditure.

This information is also intended for DAO members on areas for decision making.

July 21st 2026

Project Summary

Publications

Video Content Several Zcash Educational Tutorials and Clips from Community Calls and Interviews have been shared via our Youtube, X, Bluesky and Mastodon.

Written Content Several new pieces of Zcash Documentation has been added/updated on our open source repository. These include Guides, Exchange and Block Explorer listings, Developer Resources, Various Wallets and more.

Development

ZecHub Wiki Has had several new features added such as an interactive visualizer & tools such as payment request builder and unified address parser.

ZECBounties We have fully migrated to the Bounty Platform with native Shielded Zcash payments. Feedback is actively being received and several new features are being added.

Events

ZecHub Hackathons From Late May into June the ZecHub hackathon was hosted. A second hackathon is planned for November-December.

Community Live calls have been held with aligned privacy projects as well as Zcash Supporting Organisations. Our First Games Night of the year will be happening in early May,

Governance

DAO Proposals Over 20 proposals have been deliberated and voted on this quarter.

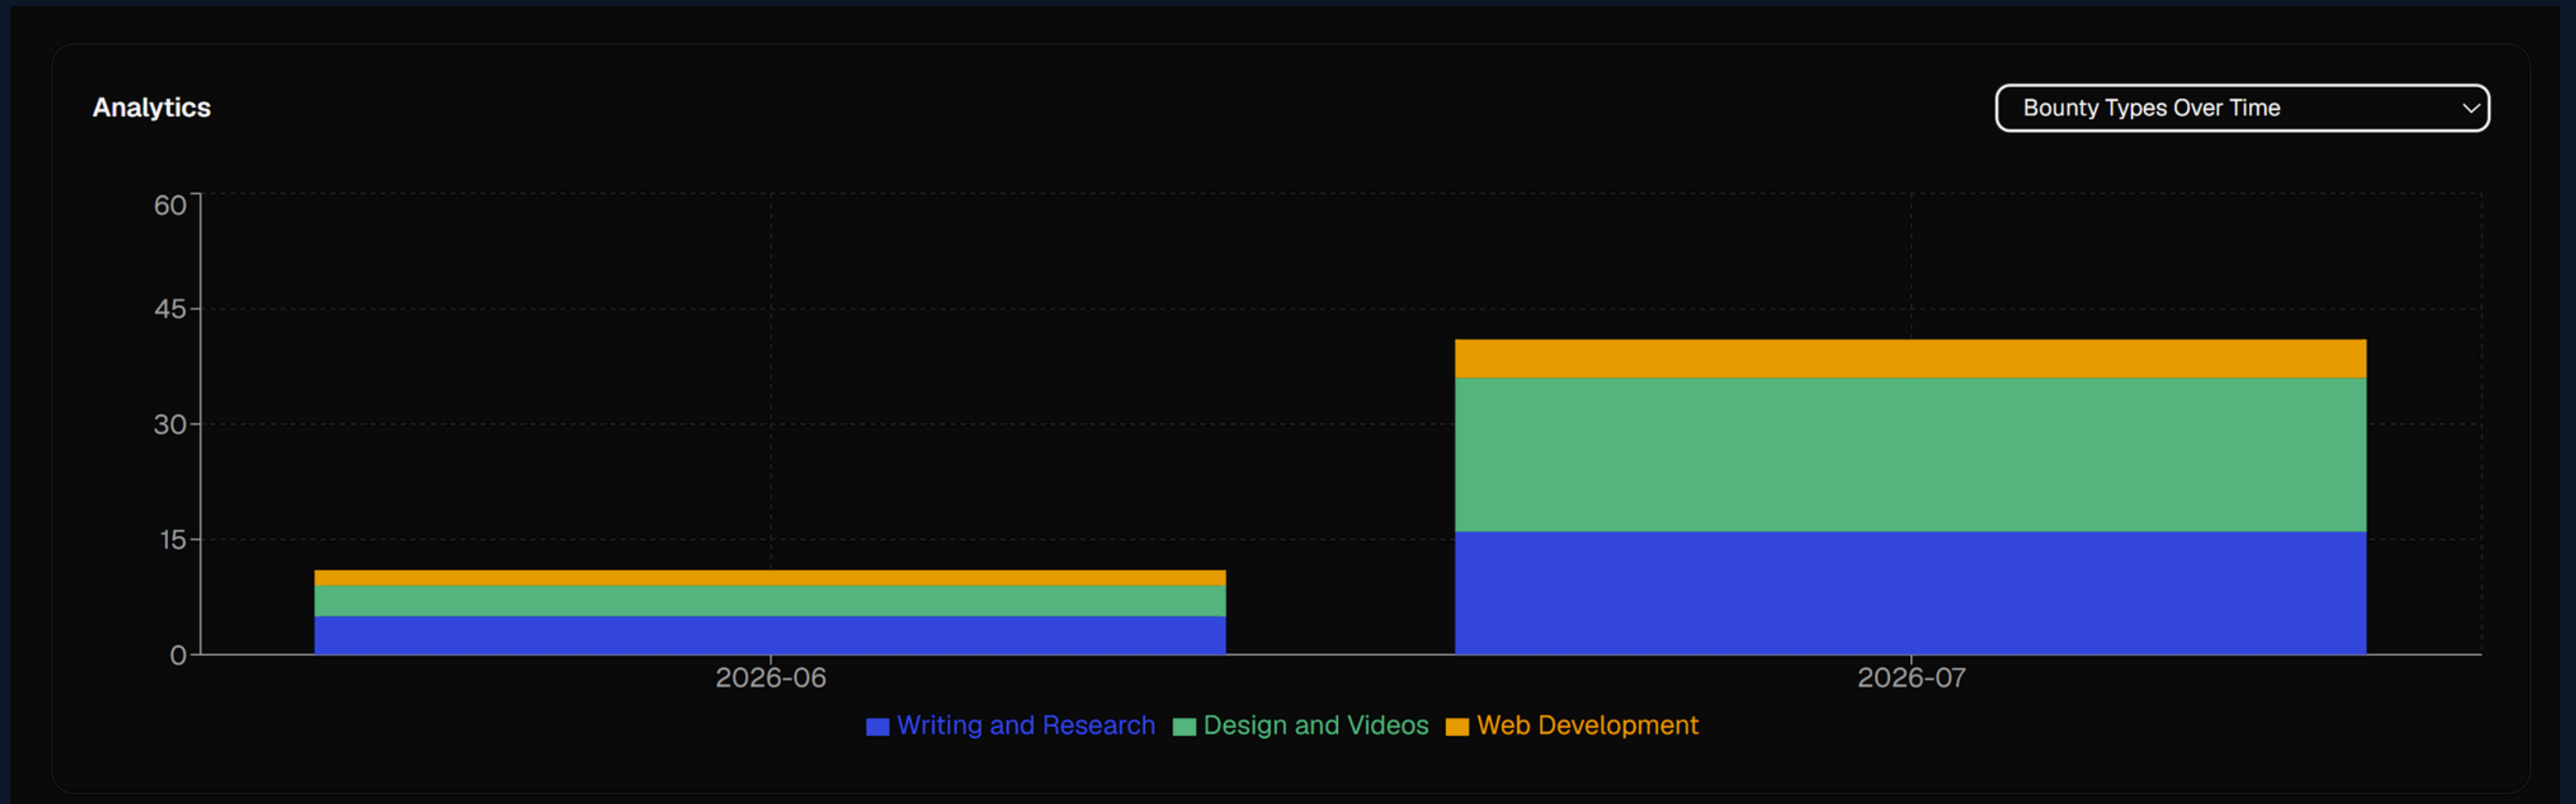

Bounty Program

- In 2026 293 payments have been made so far (+136 this quarter)
- On average we have 20 contributors every month
- Areas of Contribution include Documentation, Web Development, Poster Graphics, Social Posts for IG/TikTok, Newsletter curation and Animated Videos
